# The Oerthan Royal History

## A Reign by Reign summary of the Princes and Princes of Oertha

By Baron Khevron Oktavii Tikhikovich Vorotnikov, O.P.  
July, LIX (2024) Edition

Gentle reader,

This Oerthan Royal History was a project undertaken due to a curiosity of both the history of Oertha and the study of heraldry. I hope you enjoy learning what I've learned about Oerthan history as well as have fun coloring. As many of you know, there were two previous "Oerthan Coloring Books", one which included many or all the registered arms of the populace at that time under the branches they resided in. The second (mine) included only the peers who have started in, participated or now reside in Oertha and awards beyond Armiger. Much as I'd like to, the inclusion of every armiger would be a far greater project. That book was getting too large to print. Now, this Oerthan Royal History references each reign of Prince and Princess, with detail. Ultimately, this reference is but a framework for one to attach the verbal or written details of the full History of Oertha. I hope this proves useful to you and generates storytelling and inspires achievement.

I want to thank all the numerous people who have helped make this project a reality in the tracking down of people, finding and confirming information, artwork, editing, proofing of the heraldry, inspiration and much sage advice. Without their help this would not have been possible or anywhere near as accurate. Most notably, I'd like to thank Kareina Talvi Tytär, Bjarni Edwardsson, Annora de Montfort, Morgana yr Oerfa, Hirsch von Henford, Margarita Catherine de la Calvi, Kylson Skyfyre, Anne of Bradford, Tancred de Fraser, Eoin MacLaren, the good folk on the SCA-Heralds e-mail list, ALL The CHRONICLERS of Oertha, the programmers and artists that made the CorelDraw! v.3-x5 vector illustration program and Armorial Gold Heraldic graphics for the PC. Most of all, I'd like to thank the populace of Oertha, past, present and future for adding to our experience in the SCA!

Other references used in construction of this book are: The Art of Heraldry by A.C. Fox-Davies, A Pictorial Dictionary of Heraldry by Bruce Draconarius of Mistholme, The on-line West Kingdom Order of Precedence, other Kingdom O.P. Web sources, and The Oerthan Coloring Book by Kenneth Mayer (1985) and the Known World Handbook (all recommended references!).

I have attempted to find people and obtain their own artwork for this book, but many people are inactive and/or unreachable. I've done my best to keep to their intent on their blazons and names, and will gladly make changes in future editions if there are any mistakes or preferred art. If I have left anyone out, or details lacking, please alert me and I will see to adding them in where appropriate. I continually publish subsequent editions of this book as time goes on.

**This book is laid out in the following way:**

**Section I:** SCA Kingdom Genealogy, West Arms and Oerthan Regnum History, starting with "North" Lord Defenders listings.

**Section II:** Prince and Princess's of Oertha, with as much information about each reign as possible.

**Section III:** Branches of Oertha, their Royalty history and awards.

**Section IV Appendix:** Kingdom and Principality Royalty & Coronet History, Peerage orders, Grants and other major awards, some summaries and Baronial History, Principality Officers.

**See the Heraldry Reference page at the back for tinctures and other information handy to color this book.**

Rather than title stack, I'm keeping the highest title (or preferred linguistic alternate), and also including the bestowing King and Queen at least on the first peerage, and Oerthan Royal peerage for reasons of room. Facts are listed in chronological order.

Note: The rules of the College of Arms (CoA) have progressed and been refined over the years, and while all the following arms are registered, some of the charges or designs pictured here may not be optimal examples of registerable heraldry. Please consult your local, principality or Kingdom book herald for more information. You don't have to be an armiger (Award of Arms) to register a device!

By all means, go forth and develop your own heraldic design!
